

Avagri™

Avagri™ is a specifically formulated liquid fertiliser for foliar use on fruit and vegetable crops to improve crop firmness, storability, colour and skin finish.

BENEFITS

- PROMOTES MORE EFFICIENT DELIVERY OF CALCIUM TO THE CELLS WHERE IT IS NEEDED
- OPTIMISES PHOTOSYNTHESIS AND SUPPORTS NUTRIENT UPTAKE
- STRENGTHENS THE CELL WALLS AND PLANT MEMBRANES, PROVIDING RESISTANCE TO ABIOTIC STRESS, FIRMER FRUIT, BETTER SKIN QUALITY AND LONGER SHELF-LIFE POST-HARVEST.
- INCREASES SUGAR CONTENT (°BRIX)

Calcium combined with micronutrients which can be applied from the first true leaves to pre-harvest.

PHYSIOCHEMICAL PROPERTIES

Appearance:	Green Liquid
pH:	5-7
Electrical Conductivity:	4.9mS/cm
Density	1.5 g/cm ³

DECLARED CONTENTS:

8.5 %	TOTAL NITROGEN (N)
0.5 %	Ammoniacal nitrogen (NH ₄)
8.0 %	Nitric nitrogen
13.5%	TOTAL CALCIUM OXIDE (CaO) Water soluble.
2.5 %	TOTAL MAGNESIUM OXIDE (MgO) Water soluble.
0.04 %	Total copper (Cu) chelated by EDTA.
0.13 %	Total manganese (Mn) chelated by EDTA.
0.02 %	Total molybdenum (Mo) Water soluble.
0.03 %	Zinc (Zn) chelated by EDTA.

Low in Chloride

Typical application rate 2.5-3.5 L/Ha

COMPATIBILITY

It is recommended to perform a compatibility test with other products before mixing and to perform small scale crop trials before using the product.
