

NueNutri™

NueNutri contains bioactive compounds which activate specific metabolic pathways especially important at the pre-flowering stage.

NueNutri is an optimised liquid bionutrient containing vinasse, amino acids and essential micronutrients.

BENEFITS

- **RAPID ABSORPTION AND TRANSLOCATION**
- **IMPROVES PLANTS ENERGY BALANCE**
- **ENHANCED VEGETATIVE DEVELOPMENT**
- **ENHANCED PRODUCTIVITY**

PHYSIOCHEMICAL PROPERTIES

Appearance:	Brown Liquid
pH:	5-6
Electrical Conductivity:	15.2 mS/cm
Density:	1.16 g/cm ³

DECLARED CONTENTS:

2.4 %	TOTAL NITROGEN (N)
2.1 %	Minimum organic nitrogen (Norg), organic matter from vegetal origin
0.2 %	Ammoniacal nitrogen (NH ₄)
0.1 %	Nitric nitrogen
2.5 %	TOTAL POTASSIUM OXIDE (K ₂ O)
2.5 %	Water soluble potassium oxide (K ₂ O)
15.7 %	Organic carbon (Corg)
0.6 %	Manganese (Mn) water-soluble from Sulphate
0.05 %	Molybdenum (Mo) water soluble
35 % (w/w)	Dry matter

ADDITIONAL INFORMATION:

pH.	5-6
Low in chloride	
25.5 % (w/w)	Organic matter
0.7-1 % (w/w)	Free amino acids

COMPATIBILITY

NueNutri is not compatible with products containing copper.

It is recommended to conduct a compatibility test before mixing with other products and to run a small-scale crop trial before use.

*For full details consult the Safety Data Sheet (SDS).

Typical application rate 2.5L/Ha
